

The Soil and Water Conservation District Board and Soil Conservation Service Staff wish to acknowledge the cooperation given by the District Cooperators, Missouri Conservation Commission, Agriculture Extension Service, Farmers Home Administration, Agriculture Stabilization Conservation Service, Conservation Contractors, Republican-Times, KTTN Radio, Vocational Agriculture Department and other individuals and groups who have cooperated with the District's program this past year.

Note of Appreciation

The Board of Supervisors wish to take this opportunity to express its sincere appreciation to the district cooperators, business firms and individuals for their financial support in 1970.

These funds were used for clerical help, Soil Stewardship material, Voc-ag Soil Judging Contest, Land grading demonstration, annual meeting, 6th grade conservation poster contest, conservation fair booth, postage and paper, and marking flags used by our technicians.

The above projects are all used to help in developing a strong soil & water conservation program in Grundy County which is the districts purpose.

The Solution to Pollution is dilution of the solution.—C.E.M.

Drainage Ditch	60,000 Feet
Land Grading for Drainage	344 Acres
Windbreaks	15

Engineering and technical service was also provided to Grundy County Industrial Development Corp., City of Trenton, Trenton Planning Commission, Public Schools and Churches of the County.

The Grundy County Soil & Water Conservation Districts' purpose is to develop and carry out a coordinated action program which will result in the conservation and improvement of the Soil, Water, Woodland, & Wildlife resources in Grundy County.

To help carry out this program the District, through the Soil Conservation Service, offers planning, design, and layout of soil, water & related conservation measures, for rural & urban people. This includes parallel terraces, grassed waterways, farm ponds, erosion control structures, diversions, land leveling, drainage, pasture improvement and management, farmstead windbreaks, recreation, wildlife measures, animal waste disposal systems and anti-pollution practices.

Conservation education programs are available for schools, service clubs, youth groups and all people within the district.

Plant materials for trial plantings from Elsberry, Mo.

Plant Material Centers are also available to cooperators upon request.
