Management Intensive Grazing School

This school is designed to educate livestock producers about management practices that will maximize returns from forages and livestock. Management intensive grazing uses a combination of rotational grazing, proper stocking rates, increased watering locations, and proper rest periods of available forages.

This workshop will teach the basic methods of planning a grazing system and will consist of both classroom and field work. The Planned Grazing System is a practice on the state cost-share docket and is to assist landowners in developing a system. Attending a grazing school is one requirement for that practice. Information on that practice will be given during the school.

We hope you will enjoy your time at the school whether you are from our county or here just for the school!

SWCD assistance is available without regard to race, color, national origin, sex, religion, age, disability, or marital status.

Workshop Info.

Date: June 4 and 5, 2013

Time: Tuesday, 8:00-4:30

Wednesday, 8:00-4:00

Location:

Laclede Electric Cooperative Public
Meeting Room

1400 E. Route 66

Lebanon, MO 65536
