### **Cost Share Programs Available to Assist with Rotational Grazing**

**DSP-3, Planned Grazing Systems**, practice is available in participating counties through district cost-share. The main objective is to promote total resource management on pasture land through rotational grazing. Cost share is available for interior fence, water and water distribution.

**AgNPS** practices and incentives are available for management intensive grazing and related practices for landowners owing ground in the project area.

**EQIP, Environmental Quality Incentives Program**, is available through NRCS. The programs main objective is to better manage present resources. Cost share will be provided for components necessary to install a grazing system as well as addressing additional on the farm concerns.

**MDC, Missouri Department of Conservation**, provides cost share for alternative water and fence to exclude livestock from riparian areas.

**CCRP, Continuous Conservation Reserve Program**, has cost share available for alternative water and fencing for riparian areas for livestock exclusion with enrollment of qualifying ground into CRP as marginal pasture.
