

# Regional Management-Intensive Grazing Schools

## 2015 SW Missouri Regional Grazing Schools Schedule:

### What is a Management- intensive Grazing System?

Also known as rotational grazing management. A system where grazing is managed for both the benefit of the livestock and forage. Livestock graze in each pasture long enough to harvest the forage, but removed before too much leaf area is consumed. A basic system may have four or five pastures, while a more management intensive system will have eight to ten pastures

### How do you sign up?

Contact the person in charge of the school of your choice or contact your local NRCS, Soil & Water Conservation District or Extension Office. If you plan on attending, you need to hurry and get your name on the list because seating is limited and the schools fill up fast.

*Note: This listing of schools covers schools from Marshfield, Missouri south to the Arkansas line and west to the Kansas line. Other schools are planned to the north and east of this region.*

April 21, 24, 28, May 1, 2015 (evenings)

April 25, 2015 (Saturday – all day)

Location: Halfway, MO

Contact: Dallas County SWCD  
417-345-2312, ext.3

----

April 28, 29, 30, 2015 (daytime)

Location: Mt. Vernon, MO

Contact: Lawrence County Extension  
417-466-3102

----

June 9, 10, 11, 2015 (daytime)

Location: Neosho, MO

Contact: Nathan Witt  
417-451-1007, ext.3

----

September 15, 17, 22, 24, 2015 (evenings)

September 19, 2015 (Saturday - all day)

Location: Greenfield, MO

Contact: Cedar County SWCD  
417-276-3388, ext. 3

----

September 16, 17, 18, 2015 (daytime)

Location: Crane, MO

Contact: Stone County SWCD  
417-723-8389

----

September 22, 23, 24, 2015 (daytime)

Location: Marshfield, MO

Contact: Webster County SWCD  
417-468-4176, ext.3

----

October 20, 21, 22, 2015 (daytime)

Location: Springfield, MO

Contact: Greene County SWCD  
417-831-5246, ext.3

----

If you would like information about other schools around the state visit the Missouri Forage and Grassland Council website at:

<http://mofgc.org/index.html>

*All Sessions are part of the grazing school and must be attended as a whole. Times and dates are subject to change without notice.*

### Topics Covered at the Grazing Schools:

- Inventorying Farm Resources
- Soils and Topography
- Plant Growth and Species
- Grazing Basics
- Livestock Water
- Extending the Grazing System
- Fencing
- Forage Quality Discussion
- Economics of Grazing
- Layout and Design of a MIG System
- Meeting Nutritional needs of Livestock with Pasture
- Pasture Fertility
- Forage Estimates,
- Grazing Heights,
- Matching Livestock with Forage Resources
- Farm visits

## **Why should you attend one of these schools?**

The single most important management factor in determining the profitability of a livestock operation is keeping feed cost low. So why buy it when you can grow high quality feed yourself through a Management-intensive grazing (MIG) system?

Cost control, not the amount of production, separates profitable from unprofitable operations. Through a MIG system you can keep your cost down and production in most cases will increase, all while helping out the environment.

In addition to the profits to your pocket book and the environment you may be eligible to receive cost share to help establish your MIG system. Attendance at a grazing school is one requirement to be eligible for state cost share programs.

So come to a Management-intensive Grazing School where you can learn about the fundamentals of a MIG systems so you can improve your profitability and the environment.

# **2015 Southwest Missouri Regional Management- intensive Grazing Schools**

Schools are Conducted and  
Sponsored by:

USDA - Natural Resources  
Conservation Service

University of Missouri  
Extension

Area  
Soil and Water  
Conservation Districts

**Registration fees will vary from  
school to school.**
